Abstract

www.bigsmall.in- An online gift shop for unique, funny and creative gifts for guys and girls. At bigsmall.in, explore the most unique gifts for any kind of person, or occasion. This website is quite similar to our web app "Surprise BD". In this article I am going to write a review on it about how this website relates to our web app. In this article I'll provide the methods for developing the website, including tools, equipment, and procedures. And this will include a discussion of how the website relates to our research, as well as the findings and their implications.

Introduction

We started our work on our project by looking for some related work and analyzing customers review about the work so that we can develop a user-friendly project. One of our project related work is "bigsmall.com". When people offer their loved ones surprising tiny presents out of the usual, there's nothing greater than a wide-eyed smile on their faces. And it was out of this that bigsmall was born. in They wanted to make it more than simply another giveaway by abandoning the practice of traditional giving. They assist people in giving their loved ones gifts that match their personalities.

As a result, with the goal of providing customers with the greatest gifts from across the world, they have gone on a quest to make gifting a painless experience. As a result, you'll never find anything conventional here. Everything has a personal touch, from the items to the packaging to the customer service. That is what distinguishes bigsmall.in from conventional retailers!

Related works review

"Surprise BD," the project on which we've been working, is a web tool that allows users to plan surprises and presents. People may come upon one of these and offer it as a personalized gift to their loved ones. It will be a user-friendly website that contains all of the unique information. On the other hand, "bigsmall.in" is an online gift shop —

They think that every day is an opportunity to make someone special smile. Bigsmall.in has the most unusual and unique gifts for any occasion, including creative birthday gifts for girlfriends, gifts for new moms, baby shower gifts, valentine's day gifts for boyfriends, father's day gifts, unique housewarming gifts for your newly moved in neighbor, and funny gifts for your best friend. They aim to promote the joy of gifting rather than making it a chore or a chore. And to brighten your day, provide a perfect combination of requirement wrapped with individuality. They think that even if there is no occasion or event to recognize you as the unique individual you are, a small pleasant present for yourself would be great.

Here is some similarity between Surprise BD and "giftcart.com" —

1. Both of the sites are made for delivering gifts and surprises.
2. Both ensures original gifts and fast delivery.
3. Both web application has customized order page.

Methods

At Bigsmall, they show how the product works with awesome pictures, GIFs and videos. They want to make sure you understand exactly what you're buying and what it does while we put a smile on your face at the same time.

Shoots are done in office so, what you see is exactly what you get. Detailed product descriptions accompany every product which ensures a better understanding of the same.

Along with this, their awesome team helps with queries and real time photos over Whatsapp for quicker response and understanding of the products.

They have used HTML, CSS, JavaScript, Bootstrap, PHP, React, Material UI, Django and some more frameworks. They gradually developed their website by using different frameworks and languages.

Results

We compared and contrasted all of the features of bigsmall.in with our web app. The unique feature of our web app is that we will deliver presents to the customer's location at a time that is convenient for them. Customers will be able to choose gifts from our web app or personalize gifts for their loved ones. This sets us apart from Bigsmall.in since it guarantees quick delivery.

Discussion

We're on a quest to make unique and amazing presents available to anybody who is sitting at home. Your experience will be delivered to your home with only a few mouse clicks on the internet. However, we understand how much each present means to you. And it is for this reason that we ensure that it is a remarkable event!

Conclusion

We need to improve our web app to make it more advanced and elegant, according to our study on "bigsmall.com." Our concept for a surprise website is similar to theirs. In the future, we will hire expert curators to ensure that our consumers get genuine value every time they visit us.
